Exciting Summer Show Opportunities Inside!

Dirt is the beginning and end to all things natural. With that being said ... this premise was the creation of Dirt Candles ... born and inspired by the origin of all things natural.

Dirt Candles are formulated from beginning to end with these natural things ... starting with GMO-free soy wax made with organic soy cultivated by farmers right here in the United States, along with essential oils and botanical ingredients and ending with 100% post consumer recycled packaging.

The company's candle-making history started back in 2000 in Annapolis, Maryland out of the love of candles and the desire for a natural, top-quality candle. During these past eight years, Dirt Candles has evolved from a small, family-run business to an international company respected for its naturally inspired, hip products.

Their candles are made from 100% natural soy and are currently offered in 24 unique, complex aromas in a 10-ounce boxed size. Their aroma blends are meticulously crafted with no fillers or dilution oils, providing a solid blend that is clean and pure, but extremely intricate. This combines for an ever so slight but distinguishable difference when burning and throughout the life the candle.

A few of their popular scents are Wedding Bliss, Love Machine, A Fresh Start, Best Friends, Day at the Beach and Peace of Mind to name only a few. Each scent is uniquely combined with the finest ingredients and each carry a distinctive and thought-provoking message

Launching this month, is their new line called Dirty Baby. An all-natural line of baby products, Dirty Baby products are specially formulated to be mild, gentle and nourishing to a baby's delicate skin. Every ingredient is carefully selected to create the highest quality product that is natural in every way. All products are certified vegan and can be used not only on babies, but children and adults as well! A portion of each product sold is donated to a children's charity so that together it can make a difference in lives of suffering children.

The central philosophy of Dirt Candles is to give back to society. That is why their products are environment-friendly, animal-friendly, people-friendly and help to support causes that they feel are so important. A portion of each sale is donated to various charities chosen by their customers and employees.

For further information, please call (866) 436-3865 or visit their website at www.dirtcandles.com or www.dirty-baby.com.
